

## People important to me

Strips of paper in various colours e.g. 20 x10cm

Scissors

Pencils

Felt pens and crayons

### Friendship chain

**Fold a strip of paper accordion style to make a rectangle.** Make the folds as even as possible. [A good trick is to first fold the strip in half multiple times. When the desired rectangle size is met, unfold the paper. Using the creases made from the folding, fold it accordion-style. ]

**Draw the outline of a person in the middle of the rectangle.** Draw the person with the head, feet, and hands touching all the edges.

Cut out a chain of people.

Write names on your friends. Don't forget to put you on the chain also!

[You could make strings of friends for :-

school friends, church friends, neighbourhood friends etc. ]

### B. Friendship bracelet

Assorted beads

25 cm of cord elastic. Not too thin! [Tie one neutral bead on the elastic]

From all the friends on your people chains pick 6-10 special friends. Choose a bead for each special friend.[ It could be that person's favourite colour or.... ]

Thread the beads on the elastic.

[You may choose to put a plain bead between each special friend]

Ask an adult to tie off the ends with at least 3 knots!

Make a colour code for the friendship bracelet.
